---

## PROFILE SUMMARY

Passionate Computer Science student and MERN Stack Developer with a dedicated focus on building scalable real-world web applications. Proven ability to develop full-stack solutions with clean UI and structured backend architecture. Currently expanding expertise into System Design and Artificial Intelligence, motivated to engineer impactful technology solutions.

---

## TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design. □
  - **Backend:** Node.js, Express.js, RESTful APIs.
  - **Database:** MongoDB.
  - **Tools & Version Control:** Git, GitHub, VS Code, Postman.
  - **Languages:** JavaScript (Proficient), Python (Basic/Learning).
  - **In-Progress:** Artificial Intelligence, Machine Learning, System Design.
- 

## PROJECTS

**MERN Stack Web Application** \* Developed a full-stack application leveraging the MongoDB, Express, React, and Node.js stack. □ Implemented secure **User Authentication** and full **CRUD functionality**.

- Designed structured backend APIs to ensure seamless data flow and performance.

**Backend REST API Development** \* Architected RESTful services using Node.js and Express.

- Integrated MongoDB for efficient data storage and retrieval.
- Managed rigorous API testing, data validation, and error handling protocols.

**Personal Portfolio Website** \* Built a responsive, mobile-first portfolio to showcase technical projects and skills.

- Applied modern UI/UX principles to ensure a professional user experience.
- 

## EXPERIENCE

**Independent Developer & Self-Learning** | 2023 – Present

- Dedicated 2+ years to mastering the MERN stack through hands-on project building.
    - Strengthened problem-solving skills by debugging complex full-stack issues.
  - Consistently practicing coding logic and exploring the fundamentals of AI/ML integration.
- 

## EDUCATION

**Bachelor of Computer Applications (BCA)** *Indira Gandhi National Open University (IGNOU)* | Currently Pursuing

- **Core Focus:** Data Structures, Web Development, Programming Logic.
- 

## STRENGTHS & LANGUAGES

- **Strengths:** Highly disciplined, curious learner, strong analytical problem-solver, adaptable to new tech stacks.
  - **Languages:** Malayalam (Native), English (Technical & Conversational Proficiency).
- 

## CAREER GOAL

To evolve into a world-class Software Engineer, specializing in advanced AI-driven systems that solve complex global challenges and improve lives through technology.
